

Holiday Crossword for Kids No 4 – A Day at The Seaside

Half the solutions have word clues shown below, and the other half are all things you see at the seaside. These solutions are shown in the picture and some of them are two-word answers. Also some of these answers are plurals, and some are singular even if there's more than one in the picture. For example if there were two dogs in the picture, the solution could be 'dog' or 'dogs'.

All you have to do is solve a few of the word clues first, and then fit the other solutions into the grid wherever they will go.
